PROFESSIONAL SUMMARY

Motivated and detail-oriented Flutter Mobile Developer with hands-on experience building cross-platform mobile applications using Dart & Flutter. Skilled in integrating Firebase, REST APIs, and FastAPI back-ends with PostgreSQL/SQLite. Passionate about crafting clean, performant UIs and delivering user-centric solutions. Currently pursuing a BS in Software Engineering while actively seeking opportunities to grow as a professional mobile developer.

TECHNICAL SKILLS

Mobile Development	Flutter & Dart • Cross-platform iOS & Android • Responsive UI Design • Custom Widgets
State Management	• Riverpod
Back-end & APIs	REST APIs • FastAPI (Python) • PostgreSQL • SQLite
Firebase	Authentication • Cloud Firestore • Firebase Storage
Tools & DevOps	Git & GitHub • VS Code / Android Studio • Postman
RAG System And the Ai Agents	

PROJECTS

MediTrack – Smart Patient Medication System

Tech Stack: Flutter • Firebase • FastAPI • PostgreSQL

- Built a full-stack medication management app enabling patients to log prescriptions, set reminders, and track adherence.
- Integrated Firebase Authentication for secure login and Cloud Firestore for real-time data sync across devices.
- Designed a FastAPI back-end with PostgreSQL to manage patient records and medication schedules via RESTful endpoints.
- Implemented push notifications for medication reminders using Firebase Cloud Messaging (FCM).

Expense Tracker

Tech Stack: Flutter • SQLite • Provider

- Developed a personal finance app for tracking income, expenses, and monthly budgets with visual charts.
- Used SQLite for offline-first local storage, ensuring full functionality without an internet connection.
- Applied the Provider state-management pattern to maintain reactive UI updates across the app.
- Built interactive pie-chart and bar-chart visualisations for spending categories.

Reading Tracker App

Tech Stack: Flutter • Firebase Firestore • Riverpod

- Created a book-tracking app that lets users log books, set reading goals, and monitor progress.
- Integrated Firebase Firestore for cloud-based book data with offline caching support.
- Used Riverpod for scalable and testable state management throughout the application.
- Designed a clean, material-design UI with dark/light theme support.

EDUCATION

BS Software Engineering (In Progress) National Textile University — Faisalabad, Pakistan	2024 – Present
FSc (Pre-Engineering) Intermediate Board – Faisalabad	2022 – 2024
Matric (Science) Matriculation Board – Faisalabad	2020 – 2022
